ABOUT THIS INDEX

This booklet unifies the two indexes of Volumes 1 and 2, giving readers a comprehensive reference of both volumes. The unified index is uniquely designed to enable an in-depth study of *The Ra Contact* material. It departs from standard index formats in several ways:

- The reference numbers point to the particular session and question number in which the relevant information can be found rather than the page number.
- The entries are listed in alphabetical order, though some of the sub-entries are ordered based on their conceptual context presented in the material. (For instance, energy centers are listed from Red, to Orange, to Yellow, etc. within the Energy Center entry.)
- The listed references are not limited only to Q&As where the term was mentioned, but also Q&As that may not contain the term yet speak to the concept.

This index is as comprehensive as possible within the capabilities of the many individuals who have contributed to its creation and refinement. It contains approximately 590 total terms (including primary, secondary, and tertiary), 81 alternative wordings, 114 "see also" associated terms, and 60 "see" references, with over 9,000 total Q&A listings. As comprehensive as it is, this index should be considered a constant work in progress that will receive subsequent updates in future editions.

Creating this work was a great collaborative labor of love that spanned countries and continents, from Germany, Italy, and China, to Colorado, Ohio, Tennessee, Viriginia, Washington, and Kentucky. In concert with Jim, Austin, and Gary, those responsible for this wonderful work include Joseph Dartez, Erez Batat, Fox Hutt, Gianluca Mosaico, Jade Norby, Jeremy Weiland, Jochen Blumenthal, Ken Wendt, and Sean Hsu.

Along with the volunteers, we discovered that reading every Q&A for a given term is one of the richest ways to deepen one's study of this material. We hope you find this index a useful tool in your own study of the many and varied topics explored by Ra and the questioner.
